THE BANK OF CALIFORNIA AGAIN TO THE FRONT.

The past few days have been like a dream. The sudden startling announcement of the failure of the Bank of California, the strange death of its President, the temporary suspension of other banks, the panie created in financial circles, and now the news that the Bank will reopen in a few days and transact business delight this latter announcement we can but express the hope that the Bank will henceforth and forever transact only a legitimate banking thomselves: business, keeping free from all entangling alliances with the stock market, steering clear of speenlations of a "wild cat" order, and confine it solf strictly within the true limits of an institution of that character. Sharon, Mills and Boose, as announced observere, have stopped in with a cool million each, and placed the Bink again on its pins. Misorable cusses, why did they not do it before, and save the life of him who has always been its guiding spirit, will resume business. and who only asked for more time and he would pay dollar for dollar to dopositors and fifty cents on the del-Inr to stockholders, adding that his life had shown he was not given to cisco show that the assets of the idle boasting. His proposition was Bank of California are greatly in exrejected, and himself requested to cess of the liabilities, and that busirosign-a cowardly, unjust not to say the least. His noble set in sacrifleing all his property for the benefit of the Bank was the grandest act of his life. But Poor Relston! he sleeps the sleep that knows no waking, and other and less deserving men will now reap the benefits of his life's

### THE CAMPORNIA ELECTION.

Inbors.

The State election in California will take place to-day. It will hardly be possible to obtain full and complete returns for three or four days --- possibly a week. Our readers are well aware that the political situation in our sister State is in a very mixed condition, and it is impossible to prodict with may certainty the result, unless taking into consideration the demoratized condition of the Ropublican and Independent parties, and noticing the unanimity with which the Demograts go for the little leaves and fishes, nobly assisted by the Contral Pacific Bailroad, we give it as our opinion that they will carry the Bank will resume. the State, Bidwell second, and Phelps hindmost in the race. Local and municipal officers will be elected indopendent of any political organization. The people now a days have a way of voting just as they please. And they are right.

The Ban Francisco Chronicle of vestorday contained the following double leaded editorial, headed. 'Envorable condition of the Bank of California:" "We are enabled to no over issue of stock. The Bank announce in an authoritative manner, from the highest sources of information, that the rumors to the prejudice of Mr. Ralston's integrity in reference to the management of the Bank of California are all false and unfounded. There has been no overissue of lank stock. There has been no abstraction of the bank securities, and no improper appropriation of Mr. Raiston's personal account at the bank is not everdrawn. The largest cred-itors, representing in a few persons over 5,000,000 of claims, have agreed to give an ample extension, and in every way facilitate the restoration of the bank's standing. The Directors and the leading stockholders tors and the reading have fully recognized their personal J. K. Kinkead:—Bank will un.
